Multi-use Battery Back-up System
For an additional cost this can be fitted to ensure continued use of the Recliner up to approximately 20 complete cycles of the action in the event of power failure. Highly recommended.
Perfect positions
These classically styled armchairs are fitted with a reliable push button electric riser. These simple to use Risers will gently raise you to your feet and lower you back into your chair, helping you to remain safe and independent. The riser action will also reduce the stress which would normally occur on your joints and knees when you get up and down.

Comfort and safety
The Serena, Sofia, Sienna and Sasha are fitted with an anti-entrapment system incorporating sensors and a shroud to ensure that nothing becomes trapped in the chair’s mechanism. There’s also a battery back-up system which allows the chair to be raised and lowered at least three times in the event of a power failure.

Everyday convenience
For maximum convenience, the Serena, Sofia, Sienna and Sasha come with two side storage pockets which are ideal for holding books and magazines. It also has washable head and arm covers to protect against dirt and wear, and a stitched handset holder to ensure it’s always on hand and doesn’t get lost or damaged.

Giving you great choice
The Serena has a choice of 3 backs (standard, waterfall or button). The Sofia has a button back and the Sienna & Sasha have a luxurious padded backrest. All these chairs have a choice of 4 fabrics (Cinnamon, Mocha, Oatmeal and Floral) except Sasha, which is supplied in Oatmeal or Floral only to complement any home.

Whether I need to get up or lay back, I can find the perfect position in the Serena.
